Rhythm & Blues

Chronobiology in the pathophysiology and treatment of mood disorders

Proefschrift

ter verkrijging van de graad van doctor aan de
Rijksuniversiteit Groningen
op gezag van de
rector magnificus prof. dr. E. Sterken
en volgens besluit van het College voor Promoties.

De openbare verdediging zal plaatsvinden op

woensdag 17 april 2019 om 16.15 uur

door

Stefan Erik Knapen

geboren op 29 november 1990
te Apeldoorn

Promotor

Prof. dr. R.A. Schoevers

Copromotor

Dr. R.F. Riemersma-van der Lek

Beoordelingscommissie

Prof. dr. E. van Someren

Prof. dr. A. Wirz-Justice

Rhythm & Blues

Chronobiology in the pathophysiology and
treatment of mood disorders

Stefan E. Knapen

Table of contents

Chapter 1: Introduction

9

- Mood disorders
- Rhythm and the circadian timing system
- Vulnerability to mood disorders
- Link between mood disorder and rhythm problems
- Treatment of mood disorder through rhythm
- Thesis outline
- References

Chapter 2: Association of circadian genes with chronotype and mood disorder, an analysis of epidemiological and translational data

19

- Abstract
- Introduction
- Material and methods
- Results
- Discussion
- References

Chapter 3: Social jetlag and depression status: results from the Netherlands Study of Depression and Anxiety

34

- Abstract
- Introduction
- Material and methods
- Results
- Discussion
- Supplemental material
- References

Chapter 4: Letter to the editor: Chronotype not associated with non-remission, but with current state?

48

- References

Chapter 5: Circadian rhythm disturbances in bipolar disorder: an actigraphy study in patients, unaffected siblings and healthy controls

52

Abstract
Introduction
Material and methods
Results
Discussion
References

Chapter 6: Coping with a life event in bipolar disorder – ambulatory measurement, signalling and early treatment

65

Summary
Background
Case presentation
Treatment
Outcome and follow-up
Discussion
References

Chapter 7: The temporal order of sleep disturbances and mood changes before the transition to a mood episode in bipolar disorder

71

Abstract
Introduction
Material and methods
Results
Discussion
References

Chapter 8: Fractal biomarker of activity in patients with bipolar disorder

94

Abstract
Introduction
Methods
Results
Discussion
References

Chapter 9: The duration of light treatment and therapy outcome in Seasonal Affective Disorder	107
Abstract	
Introduction	
Material and Methods	
Results	
Discussion	
References	
 Chapter 10: The relation between chronotype and treatment outcome with light therapy on a fixed time schedule	 116
Abstract	
Introduction	
Methods	
Results	
Discussion	
References	
 Chapter 11: General discussion	 124
Part 1: Vulnerability factors for developing mood disorders	
Part 2: Rest-activity rhythms and mood – actigraphy	
Part 3: Therapeutic options with chronobiological mechanisms	
General discussion	
Conclusions	
References	
 Chapter 12: Addenda	 139
